

Protecting You

**CAT III CE 0120**

**FLOCK-LINED**

The Chemiglove by On Site Safety is a well designed, comfortable fitting nitrile chemical resistant glove. It is flock lined for ease of donning on/off gloves. Have comfort knowing that the Chemiglove does not contain any Latex Proteins.

*Longer wear and better protection  
than natural rubber gloves*

The EN388 Level 4 Abrasion Resistance rating helps you manage your running costs by reducing the frequency of changing gloves due to wear and tear. The 15mil glove thickness is robust and resistance to a wide range of chemicals including strong detergents, greases, oils and most solvents.

The glove has been tested and approved to EN374-3 for A J K L chemical classes:

Code Letter	Chemical	CAS
A	Methanol	67-56-1
J	n-Heptane	142-85-5
K	Sodium Hydroxide 40%	1310-73-2
L	Sulfuric acid 96%	7664-93-9

The patterned palm ensures a good grip in both wet and dry conditions. It is 33cm in length making it ideal to use in most industrial and domestic applications.

The Chemiglove is anatomically shaped ensuring comfort and reducing hand fatigue.

CODE	SIZE
G1533NFS	Small
G1533NFM	Medium
G1533NFL	Large
G1533NFXL	XL
G1533NFXXL	2XL

Each pair is individually packed. There are 12 pairs per inner bundle and 144 pairs to the carton.

### IDEAL FOR:

- Chemical handling
- Oil refining
- Agriculture
- Print works
- Automotive
- Cleaning
